To the Owners, and Persons interested in Whaleships in the Pacific Ocean.

OFFICE OF THE PANAMA RAIL-ROAD COMPANT, }
NEW YORK, July 20, 1857. The Panama Rail-Road Company takes this method of informing those intererted in the Whaling business, of the advantages offered by the Railroad arross the lighmus of Panama, for the shigment of Oil from the Pacific to the United States, and for sending outfits and supplies from the United States, and for sending outfits and supplies from the United States to Panama.

The Railroad has been in regular and successful operation for more than two years, and its capacity for the transportation of every description of merchandise, including Oil, Provisions, &c., has been fully tested. The attention of several Captains of whaleships have recently been turned to the subject of shipping their oil from Panama to New York during the present season, and the Panama Rail-Road Company has made arrangements to afford every facility which may be required for the accomplishment of this important object. A Pier, 450 feet long, has been built in the bay of Panama, to the end of which Freight Cars are run to receive cargoes from lighters or vessels tying alongside, and deliver the same alongside of vessels at Aspinwall. Vessels of from 200 to 300 tons can lie at the Pier with safety, grounding in the mud at low water.

The vessels to and from Aspinwall are fast-sailing brigs, belonging to the Rail-Road Company, and the Company is prepared to receive oil at Panama and deliver it in New York, under theorough Bills of Lading, at the rate of eight cents per gallon, if received at the Pier, and nine cents per gallon if received in the harbor from ship's tackles, charging for the capacity of the casks, without allowing for wantage. This charge covers every expense from Panama to New York, in case the oil is sent through the Superintendent or Commercial Agent of the Panama Rail-Road Company, insurance excepted. The freights may be made payable on the Isthmus or in New York at the option of the shipper.

The vessels of the Company sail regularly semi-monthly, and
